Shahd Shawish

SOFTWARE ENGINEER

shahd.shawish@gmail.com | Amman, Jordan | +962793484777 | Github | LinkedIn | Portfolio

SUMMARY

Motivated software engineer with strong project experience, including web applications, system-level and graphical applications. Skilled in teamwork, peer learning, and self-study. Adaptable, reliable under pressure, and eager to grow in a collaborative environment.

SKILLS

Programming Languages: C, C++, TypeScript, Python, JavaScript, HTML and CSS .

Frameworks: NestJS, Node.js, NextJs, React and TypeORM.

Tools & Methods: PostgreSQL, Git, Docker, Makefile, VS Code, Claude, Linux, Unix, Virtual Machines.

Professional: Peer Programming, Teamwork and Code Review.

PROJECTS

Petopia — Full-stack web application for pet adoption, pet care management, user management, employee management, and inventory management. Developed by a team of five.

- Built with: NestJS, TypeScript, PostgreSQL, TypeORM, React, Docker, JWT.
- Technical Lead/Backend Developer, responsible for backend architecture, integration, and code reviews.
- Github Link: Petopia

Voting Platform — Full-stack digital voting system during the Hackathon for the Maker Collective 2026 Community Awards, implemented mobile voting with phone OTP verification, venue IP/GPS access control, a protected live results dashboard, and an admin console for management. Developed as a team project.

- Built with: NestJS, TypeScript, React, PostgreSQL, TypeORM, Redis, Docker, and nginx.
- Github Link: Voting Platform

Daily Work Tracking System — Full-stack system to record daily production work, approve it by department and measure performance, Role-based access, an approval workflow, JWT authentication, and productivity, efficiency and utilization statistics.

- Built with: Node.js, Express, Sequelize, PostgreSQL, JWT, React, Tailwind CSS.
- Github Link: Daily Work Tracking System

EDUCATION

Computer Science & Software Engineering (École 42) **Aug, 2024 – Present**

+2 years of study covering programming in C/C++, algorithms, Unix, Docker, virtual machines, graphics and web development through peer and self learning at 42 Amman part of the global network École 42.

Maimouna Um El-Mo'mnen High School. **2022 – 2023**

12th Grade - science path degree (88.5%).
